To Whom It May Concern:

QSI Automation, Inc. contracted K-Mitchell Associates, Inc., an affiliate of RMH Telecom Consultants, as a consultant for our telecommunications needs. K-Mitchell analyzed our current local and long distance telephone services, data (internet) services, and our cellular phone services. A comparison was made of our requirements and our current contracts.

A detailed report was provided by K-Mitchell, as well as a personal meeting to explain their findings. In the report, K-Mitchell made suggestions that would allow QSI to maintain, and in some cases, increase the level of telecom services, all while reducing our monthly financial obligations. Also, in the report, an identification of a billing error on each month's statement that QSI had unknowingly been paying for several years.

I am extremely pleased with K-Mitchell's findings and suggestions. QSI has implemented the majority of those suggestions and we have already begun seeing the cost savings. In all, QSI is saving almost \$9,000.00 a year, more than half of our previous telecommunications' costs.

I would recommend that you and your company also consult with K-Mitchell Associates, Inc. to analyze your telecommunications needs and what you should be paying for them.

Sincerely,

Jason T. Munk
Vice President - QSI Automation, Inc.
